I wish I might go into detail about the conditions here in England, Everything is so full of interest. The people are just as fine as we have always hought them; they seem to be especlally kind to one on a mission similar to ours. No one is in too great a hurry to stop and give information and make things as pleasant for us as possible. And the women! can be said too much in their prais. They are taking the places of men with a nobleness characteristic of the greatest women in history-our own grand mothers during the sixties.

An Early History of the Woman's Club.

Mrs. George B. Selden, now of Washington, D. C., was the mother of the Club. She having been the first ene to propose the forming of a club for purely intellectual improvement. The first membership was limited to twenty members, the initiation fee betwenty members, the initiation fee being fifty cents. During the same year 1897, the membership was increased to fifty active and ten honorary members. In one of the first records our constitution appears in Mrs. Selden's writing. Mrs. Geo. Welch and Miss Madge D. Ice, Assistant Principal of the public school, were our first presidents, Several members were elected secretaries, but combers were elected secretaries, but everything was new to us, and no dams was elected permanent Secretary, at the fourth meeting of the (ab. November 13th, 1897. She was followed by Miss Lucile Crutchfield. The Club was then meeting in a room froom, and over looking the Chis: Lumdry yard. By dint, of scrubbing, cleaning and

those old days. Many of those so dear to us then have gone to a better country, but some are still with us. As time passed on the need of broadening our efforts for the good of the club and of the city was felt. A musical, and civics department were wided, and we have never regretted their addition. Still later a domestic acceptance department came into be-Le science department came into bebug, and has has been of great benefit. At the end of the first year, teeling the need of a more desirable home Dr. Crill was asked about his cooms across the street, and gave us the use of them for nearly ten years, free of rent. Then as they were needet for other purposes we were again without a home, and wandered about from private house to private house, for a time over the Putman Bank, then at the Athletic Club, and in the Episcopal Guild House, then settled down for a few winters in the parlors of the Putnam House. Now all mem-bers old and new will rejoice, that we are in our own beautiful home. MRS. EMILY MACGREGOR.
